Awareness among the women on Domestic Violence:

Domestic violence is a pattern of abuse with the goal of establishing or maintaining power and control over the victim. It can happen occasionally or continuously and often worsens over time. Domestic violence includes physical, sexual, mental, and financial abuse. It knows no boundaries: Domestic violence can affect anyone, regardless of income, race, ethnicity, sexual orientation, or religion.

To help bring this issue out of the shade, the organization has been undertaken an initiative to build awareness, educate, and improve prevention and provide direct service to the victims.

Child & Women Labour:

Our focus as a civil society organization has been to learn about various global issues, and to raise awareness amongst our beneficiaries about two specific issues: Child Labour and Women's Rights. By raising awareness, our hope is that we empower and inspire people to take action in regards to both these topics. We have observed 8th March as International Women's Day and 12th June as World Day against Child Labour. We have also provided counseling for the children and parents, organizing monthly meeting for the parents and promote self-help groups for the parents of the child laboures.
