

PROGRAMME ACTIVITIES

AWARENESS PROGRAMME:

Safe Motherhood & Child Survival:

In rural area almost 10 percent of children under the age of five die each year from easily preventable causes such as diarrhoea, pneumonia, and malaria. These children do not survive because of parental ignorance or because communities in remote regions do not have access to affordable and effective lifesaving interventions. As Safe motherhood and child survival initiatives have long been top priorities of our programme activities we have organized awareness programme on safe motherhood and child survival among the women members to provide information about Pre-natal care, Safe delivery and post-natal care, health and nutrition education.

Topics	Expenses	No. of Camps	No. of Participants		
			Female (average)	Male (average)	Children/Boys/Girls (average)
Safe Motherhood & Child Survival	15,625/-	3	422	--	--

Life skill development programme for adolescent girls:

The life skills awareness is conducted to provide all the girls necessary knowledge and skills to improve their lives and to prevent early marriage. The objectives of this course are:

- To coach adolescent girls to be conscious and confident citizens
- To raise their awareness of relevant social issues such as gender imbalance, early marriage and drug addiction
- To enhance understanding of general health, hygiene, HIV/AIDS and reproductive health
- To develop leadership skills
